

ParentClass

```
graph BT; A[ChildClassWithoutStreamOperator] --> B[ParentClass];
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'ParentClass'. Below it is a box labeled 'ChildClassWithoutStreamOperator'. A blue arrow points from the bottom of the 'ChildClassWithoutStreamOperator' box up to the bottom of the 'ParentClass' box, indicating that 'ChildClassWithoutStreamOperator' inherits from 'ParentClass'.

ChildClassWithoutStreamOperator
